

VROOAM!®

SERIOUS POWERSPORTS LUBRICANTS

PASSION FOR POWERSPORTS

4-STROKE MOTORCYCLE ENGINE OILS

100% Synthetic 4T Motorcycle Engine Oil

For all high-performance air and water-cooled 4-stroke motorcycle engines, including tuned racing bikes, Superbikes, Supersports, Endurance-, Street-, Motocross-, Enduro bikes with integrated or non integrated gearbox, wet or dry clutch. Provides ultimate engine protection and smooth clutch and gearbox operation. Quick engine response and improved power output and increased reliability at the same time. For use in all conditions, circuit, road, city and off-road. VROOAM 100% synthetic PAO-Ester motorcycle engine oil exceeds highest specifications and classifications.

SAE 10W-50; API SM; JASO MA2

VROOAM recommends this product for performance motorcycles that requires the following specifications: API SM/SL/SJ/SH/SG/SF; JASO MA2/MA

100% Synthetic 4T Motorcycle Engine Oil

For all high-performance air and water-cooled 4-stroke motorcycle engines, including tuned racing bikes, Superbikes, Supersports, Endurance-, Street-, Motocross-, Enduro bikes with integrated or non integrated gearbox, wet or dry clutch. Provides ultimate engine protection and smooth clutch and gearbox operation. Quick engine response and improved power output and increased reliability at the same time. For use in all conditions, circuit, road, city and off-road. VROOAM 100% synthetic PAO-Ester motorcycle engine oil exceeds highest specifications and classifications.

SAE 5W-40; API SM; JASO MA2

VROOAM recommends this product for motorcycles that requires the following specifications: API SM/SL/SJ/SH/SG/SF; JASO MA2/MA

Semi-Synthetic 4T Motorcycle Engine Oil

For performance air and water-cooled 4-stroke motorcycle engines, including sports-, touring-, street-, off-road-, enduro- and trial bikes with integrated or non integrated gearbox, wet or dry clutch. For use in all conditions, roads, city and off-road. VROOAM Synthetic blend motorcycle engine oil exceeds highest specifications and classifications.

SAE 10W-40; API SM; JASO MA2

VROOAM recommends this product for motorcycles that requires the following specifications: API SM/SL/SJ/SH/SG/SF; JASO MA2/MA

Semi-Synthetic 4T Motorcycle Engine Oil

For performance air and water-cooled 4-stroke motorcycle engines, including sports-, touring-, street-, off-road-, enduro- and trial bikes with integrated or non integrated gearbox, wet or dry clutch. For use in all conditions, roads, city and off-road. VROOAM Synthetic blend motorcycle engine oil exceeds highest specifications and classifications.

SAE 15W-50; API SM; JASO MA2

VROOAM recommends this product for motorcycles that requires the following specifications: API SM/SL/SJ/SH/SG/SF; JASO MA2/MA

Mineral 4T Motorcycle Engine Oil

For riders who depend on their bike for day-to-day use and demand performance, protection, reliability and cleanliness for their modern, seasoned or classic bikes with integrated or non integrated gearbox, wet or dry clutch. VROOAM Premium mineral motorcycle engine oil exceeds highest specifications and classifications.

SAE 10W-40; API SJ; JASO MA2

VROOAM recommends this product for motorcycles that requires the following specifications: API SJ/SH/SG/SF; JASO MA2/MA

Mineral 4T Motorcycle Engine Oil

For riders who depend on their bike for day-to-day use and demand performance, protection, reliability and cleanliness for their modern, seasoned or classic bikes with integrated or non integrated gearbox, wet or dry clutch. VROOAM Premium mineral motorcycle engine oil exceeds highest specifications and classifications.

SAE 20W-50; API SJ; JASO MA2

VROOAM recommends this product for motorcycles that requires the following specifications: API SJ/SH/SG/SF; JASO MA2/MA

SCOOTER ENGINE OILS

Semi-Synthetic 4T Scooter Engine Oil

For all types of 4-stroke scooter engines. For scooters travelling within the city and on the highway. For smooth engine start-ups even at low temperatures. **VROOAM** Synthetic blend 4T Scooter engine oil exceeds highest specifications and classifications. **SAE 10W-40; API SM; JASO MA2**

VROOAM recommends this product for scooters that requires the following specifications:
API SM/SJ/SH/SG/SF; JASO MA2/MA

Semi-Synthetic 2T Scooter Engine Oil

For small 2-stroke scooters and mopeds and scooter riders who demand superior quality and performance combined with superior engine protection and cleanliness in 2-stroke scooters. Suitable for oil-injection lubrication systems. **VROOAM** Synthetic blend 2T scooter engine oil exceeds highest specifications and classifications.

API TC; JASO FD; ISO-L-EGD

VROOAM recommends this product for scooters that requires the following specifications:
API TC; JASO FD/FC/FB; ISO-L-EGD/EGC/EGB

2-STROKE MOTORCYCLE ENGINE OILS

100% Synthetic 2T Motorcycle Engine Oil

For high-performance air and water cooled 2-stroke motorcycle racing engines, including tuned racing bikes, motocross, road racing, kart and other 2-stroke motorcycle racing engines. Excellent lubrication and performance for ultra-high rpm's. Ultimate engine lubrication and protection, cleanliness and low smoke. Provides excellent throttle response due to superb lubrication and low friction. For all racing premix 2-stroke racing engines with a mixing ratio as specified by the manufacturer.

VROOAM 100% synthetic ester 2T motorcycle engine oil exceeds highest specifications and classifications.
VROOAM recommends this product for racing 2-stroke motorcycles that requires a racing approved product

Semi-Synthetic 2T Motorcycle Engine Oil

For high performance air and water cooled 2-stroke motorcycle engines. For road and off-road motorcycles. Excellent engine protection, cleanliness and low smoke. Prevents scuffing, ring sticking and deposit formation. Suitable for oil-injection and premix systems. **VROOAM** Synthetic blend 2T motorcycle engine oil exceeds highest specifications and classifications. **API TC; JASO FD; ISO-L-EGD**

VROOAM recommends this product for motorcycles that requires the following specifications:
API TC; JASO FD/FC/FB; ISO-L-EGD/EGC/EGB

Mineral 2T Motorcycle Engine Oil

For use in all 2-stroke motorcycle and moped engines with premix or injector systems. Prevents spark plugs from fouling and reduces deposits in exhaust pipes. Contributes to prolonged engine life and maintaining original performance levels. **VROOAM** Premium mineral 2-stroke engine oil exceeds international specifications and classifications.

API TC; JASO FB

VROOAM recommends this product for motorcycles that requires the following specifications:
API TC; JASO FB; ISO-L-EGB

MOTORCYCLE TRANSMISSION OILS

Motorcycle Hypoid Transmission Oil

For separate gearboxes that require hypoid GL-5 gear oil. Excellent for noisy gearboxes, provides high oil film resistance even under the most severe conditions. Mineral hypoid gear oil for all gearboxes without wet clutches & hypoid rear axles without LSD.

SAE 80W-90; API GL-5

VROOAM recommends this product for motorcycle transmissions that requires the following specifications:
SAE 80W-90; API GL-5

Motorcycle Transmission Oil

For use in road and off-road 2-stroke motorcycle gearboxes with wet clutch. Superior protection when hot, easy start when cold and provides smooth clutch performance and gearshift. SAE 10W-40 recommended for transmission application by major 2-stroke motorcycle engine constructors.

VROOAM recommends this product for 2-stroke motorcycle transmissions were the constructor requires an engine oil: **SAE 10W-40**

MOTORCYCLE SUSPENSION FLUID

Motorcycle Suspension Fluid

For optimum damping performance in all road and off-road suspensions for optimal absorption at all temperatures. Easier sliding, avoiding drag in the fork. Protects against foaming and corrosion. Outstanding lubricity for smoother and safer braking. superior anti-fade damping performance over a wide temperature range. Protection of seals - elastomer compatibility.

VROOAM recommends this product for motorcycle forks that requires an **SAE 10W** fork oil

MOTORCYCLE SERVICE PRODUCTS

Motorcycle Brake & Clutch Fluid Plus

For effective and optimum brake performance under extreme conditions and maintains viscosity in cold and hot environments High dry boiling point of 260°C. Suitable for all types of hydraulic DOT-4 brake and clutch systems.

VROOAM recommends this product for motorcycle brake systems that requires a **DOT4** brake fluid

Motorcycle Coolant

For protection of motorcycle cooling systems. A ready-to-use performance coolant for better heat transfer and cooler running engines. Protect cooling systems and their metallic parts from corrosion and freezing from below 37°C.

Motorcycle Total Cleaner

For safe and strong cleaning. Removes the most resistant dirt, such as chain grease, road grime and baked-on-insects. Is an advanced non corrosive cleaning emulsion that is safe for and even protects painted surfaces, fibreglass, dark plastic material, chrome, anodised parts and aluminium.

Motorcycle Chain Lube

For all types of road and off-road motorcycle chains. High performance 'tacky' grease for outstanding lubrication in all conditions of use (touring, race, road and off-road). Excellent penetration power for highest lubrication power. Reduces friction for maximum power output and protection under the most extreme conditions. Excellent adhesion for minimal fling off. Resistant to water wash off and protection against corrosion and aggressive environments.

Motorcycle Brake & Parts Cleaner

For strong cleaning and degreasing of all mechanical parts and systems. Penetrating dry cleaner spray for quick and rapid dirt removal without leaving residue. Cleans brakes, carburettors, metal surfaces and other motorcycle parts.

Motorcycle Multipurpose Lubricant

For maintenance, care and conservation. Penetrating de-watering fluid for motorcycles, provides excellent displacement of moisture from engines, ignition systems and electrical contacts. Loosens, cleans, lubricates inaccessible mechanisms and protects metal surfaces against corrosion and moisture.

Motorcycle Silicone Spray

For brilliance and protection, enhances plastic surface colours. A protective light lubricant to protect plastics against UV discolorations and to provide fenders a like-new gloss and to protect rubbers from freezing.

PASSION FOR POWERSPORTS

VROOAM takes powersports to the next level with **technically superior lubricants**. Thanks to our worldwide experience we can truly share our passion. We know how a product should perform in the highest level of motorcycle racing, therefore we developed an exclusive range of lubricants to **exceed your expectations**. We create and innovate with full commitment and product dedication, as we are a company of motorcycle riders, **performance** is our main priority at all times. We love and live powersports. It's in our DNA.
